Hundred (24,500) acres, located in the Counties of San Benito ("San Benito County") and Fresno ("Fresno County"), State of California, commonly referred to individually as the following: Valley Floor Conservation Land, Valadeao Ranch Conservation Land, and Silver Creek Ranch Conservation Land. The Conservation Lands are legally described in Exhibit A and depicted on the maps in Exhibit B-1 through B-2 attached to this Conservation Easement and incorporated herein by this reference.

C. The Conservation Lands (1) possess open space, various biotic habitat types, wildlife, and other habitat values (collectively, "Conservation Values") of great importance to Grantee, the people of the State of California, and the people of the United States; (2) will provide high quality natural, restored and enhanced habitat for the San Joaquin kit fox (Vulpes macrotis mutica), giant kangaroo rat (Dipodomys ingens), blunt-nosed leopard lizard (Gambelia sila), San Joaquin antelope squirrel (Ammospermophilus nelsoni), California tiger salamander (Ambystoma californiense), and California condor (Gymnogyps californianus); (3) will provide established, enhanced and preserved seasonal drainages and wetland features of the United States; (4) are and will remain in a Natural Condition (as defined herein); and (5) are intended to be perpetually conserved, managed, and preserved to maintain their ecological, genetic, historical, visual, and educational values. The establishment, enhancement, preservation, and management of the Conservation Lands pursuant to this Conservation Easement will mitigate certain impacts of the Project.

D. Grantee is authorized to hold easements pursuant to California Civil Code Section 815.3 and Government Code Section 65967. Specifically, Grantee is a tax-exempt nonprofit organization qualified under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended, and qualified to do business in California, which has as its primary purpose and activity the protection and preservation of natural lands. Grantee has been accredited by the Land Trust Alliance Accreditation Commission.

E. The California Department of Fish and Wildlife ("CDFW") has jurisdiction over the conservation, protection, and management of fish, wildlife, native plants and the habitat necessary for biologically sustainable populations of these species pursuant to California Fish and Game Code Section 1802. CDFW is authorized to be a beneficiary under conservation easements by California law. CDFW is a third-party beneficiary ("Third-Party Beneficiary") of this Conservation Easement as described further below.

F. The United States Fish and Wildlife Service ("USFWS"), an agency within the United States Department of the Interior, has jurisdiction over the conservation, protection, restoration and management of fish, wildlife, native plants, and the habitat necessary for biologically sustainable populations of these species within the United States pursuant to the Endangered Species Act, 16 U.S.C. § 1531, et seq., the Fish and Wildlife Coordination Act, 16 U.S.C. §§ 661-666c, the Fish and Wildlife Act of 1956, 16 U.S.C. § 742(f), et seq., and other

CONSERVATION EASEMENT

provisions of federal law. USFWS is a Third-Party Beneficiary of this Conservation Easement as further described below.

G. The United States Army Corps of Engineers ("USACE") is the federal agency charged with the primary responsibility for regulating the discharge of dredged and/or fill material into waters of the United States under Section 404 of the Clean Water Act.

H. San Benito County is a political subdivision of the State of California, and has local land use entitlement authority over the Project.

I. Fresno County is a political subdivision of the State of California.

J. The Central Valley Regional Water Quality Control Board ("RWQCB"), an environmental entity operating under the authority of the California Environmental Protection Agency of the State of California, has the mission to "preserve, enhance, and restore the quality of California's water resources and drinking water for the protection of the environment, public health, and all beneficial uses, and to ensure proper water resource allocation and efficient use, for the benefit of present and future generations." RWQCB has right of access to those areas of the Conservation Lands subject to its issued permits for permit compliance and enforcement purposes.

K. This Conservation Easement is being executed and delivered to provide mitigation for certain impacts of the Project, as required by (i) the Final Supplemental Environmental Impact Report for the Panoche Valley Solar Project, CUP No. UP 1023-09-A State Clearinghouse #2010031008, certified by San Benito County on May 19, 2015, (ii) California Endangered Species Act Incidental Take Permit (2081-2014-035-04) issued by CDFW on November 20, 2015, (iii) Waste Discharge Requirements Order R5-2015-0105 by the RWQCB for Panoche Valley Solar, LLC, Panoche Valley Solar Project, San Benito County, issued on August 25, 2015, (iv) the Clean Water Act Section 401 Certification issued by the RWQCB on October 15, 2015, and (v) the Biological Opinion issued by the USFWS (File No. 2009-00443S) on October 5, 2015 (collectively, the "Permits"). The Grantor has also submitted to CDFW Notification No. 1600-2014-0042-R4 for a proposed Stream or Lake Alteration Agreement and an application to USACE for a permit under Clean Water Act Section 404(b) to allow dredge and fill of waters of the United States. The Conservation Lands have been designed to also provide mitigation for and satisfy anticipated requirements of the Stream or Lake Alteration Agreement and the Section 404(b) permit.

L. CDFW, USFWS, USACE, San Benito County, and RWQCB are collectively referred to in this Conservation Easement as the "Agencies."

M. A draft habitat management plan detailing the implementation measures to accomplish management goals and objectives for the Conservation
Lands has been developed in accordance with the Permits and is entitled “Habitat Management Plan, Panoche Valley Solar Project Conservation Lands, San Benito and Fresno Counties, California” June 16, 2015, ("Draft Habitat Management Plan" or "Draft HMP"). The Draft HMP describes the measures proposed to be implemented on the Conservation Lands to compensate and mitigate unavoidable impacts of the Project on federal- and state-listed species. The Draft HMP provides management goals and objectives, roles and responsibilities, a description of the covered species and habitats, a management strategy, detailed management implementation tasks, monitoring methods, timelines, reporting, and funding details. Pursuant to Section 20 of this Conservation Easement, the final habitat management plan ("Final HMP") must be approved in writing by CDFW, USFWS, and San Benito County.

N. A draft wetland mitigation and monitoring plan has been developed in accordance with the Permits and is titled “Wetlands Mitigation and Monitoring Plan for Impacts to Waters and Habitats -- Panoche Valley Solar Facility Project, San Benito County, California," ca. September 2015 ("Draft Wetland Mitigation and Monitoring Plan" or "Draft WMMP"). The Draft WMMP includes both wetland and vegetative habitat mitigation and monitoring and describes the specific and detailed compensatory mitigation activities and plans, performance criteria to measure success, initial monitoring and management actions, long-term management activities, and estimated costs for the Conservation Lands for unavoidable impacts to federal and non-federal waters and special status species habitat from the Project. Pursuant to Section 20 of this Conservation Easement, the final wetland mitigation and monitoring plan ("Final WMMP") must be approved in writing by CDFW, USFWS, USACE, San Benito County, and RWQCB.

O. The Final HMP and Final WMMP are intended and acknowledged to be adaptive management plans (which are together referred to herein as the "Management Plan").

P. The Grantor and/or Grantee is responsible for providing a copy of the Final HMP and Final WMMP to any respective successor or assign of Grantor or Grantee. In the event the Grantor or Grantee does not provide a copy of the HMP and WMMP to any successor or assign of Grantor or Grantee, the successor or assign may request a copy from one of the Agencies at the address for notices listed in Section 18 (Notices) of this Conservation Easement.

Q. Grantor, Grantee, and Agencies recognize that Grantor intends to add acreage to the Conservation Lands and, accordingly, that this Conservation Easement may be amended in this limited regard and rerecorded by agreement of Grantor and Grantee to perpetually encumber such additional Conservation Lands.

R. Grantee and Agencies recognize that Grantor intends to use certain Laydown Area Envelopes (as defined in Subsection 1(d)) as material laydown

areas during construction of the Project, notwithstanding the prohibitions on certain uses described in Section 3, and that following construction of the Project, the Laydown Area Envelopes will be restored to pre-construction conditions and preserved in accordance with this Conservation Easement.

COVENANTS, TERMS, CONDITIONS AND RESTRICTIONS

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and pursuant to the laws of the United States and the State of California, including California Civil Code Section 815, et seq., Grantor hereby voluntarily grants and conveys to Grantee a conservation easement in perpetuity over the Conservation Lands.

1. **Purposes.**

   a. The purposes of this Conservation Easement are to ensure that the Conservation Lands will be retained forever in their natural, restored, or enhanced condition ("Natural Condition") as contemplated by the Permits and the Management Plan, and to prevent any use of the Conservation Lands that will impair or interfere with the Conservation Values of the Conservation Lands. Grantor intends that this Conservation Easement will confine the use of the Conservation Lands to activities that are consistent with such purposes, including, without limitation, those involving the preservation, establishment, re-establishment, and enhancement of native species and their habitats implemented in accordance with the Management Plan as approved by the Agencies.

   b. The term "Natural Condition," as referenced in the preceding Subsection, shall mean the condition of the Conservation Lands as they exist at the time this Conservation Easement is executed, as well as future changes to the Conservation Lands that occur directly as a result of preservation, establishment, re-establishment, enhancement, and/or perpetual maintenance and management activities, as approved by the Agencies.

   c. If a controversy arises with respect to the Natural Condition of the Conservation Lands, Grantor, Grantee, CDFW, RWQCB, USFWS, and USACE shall not be foreclosed from utilizing any and all other relevant documents, surveys, photographs, or other evidence or information to assist in the resolution of the controversy.

   d. The Conservation Lands contain two (2) separate, temporary construction material laydown areas ("Laydown Area Envelopes") that are subject to the terms and conditions of this Conservation Easement, except as described in this Subsection: (1) the 40.16-acre Parcel C Laydown Area Envelope described in Exhibit A and depicted in Exhibit B-3 (Parcel 4 Laydown Area Envelope) and (2) the 53.24-acre Parcel D Laydown Area Envelope
described in Exhibit A and depicted in Exhibit B-4 (Parcel D Laydown Area Envelope). Grantor retains the rights, during the Project construction phase ("Construction Phase"), to use the Laydown Area Envelopes for construction traffic access, storage of equipment, vehicles, materials, and temporary facilities, temporary water ponds, and related construction activities as allowed by and in accordance with the Permits. Upon completion of the Construction Phase, and not later than December 31, 2018, Grantor shall commence restoration of the Laydown Area Envelopes to re-establish their Natural Condition as contemplated by the Permits and the Management Plan. Thereafter, the Laydown Area Envelopes shall be subject to the terms and conditions of this Conservation Easement in all respects.

2. **Grantee’s Rights.** To accomplish the purposes of this Conservation Easement, Grantor hereby grants and conveys the following rights to Grantee:

   a. To preserve and protect the Conservation Values of the Conservation Lands.

   b. To enter the Conservation Lands at reasonable times in order to monitor compliance with the Conservation Easement.

   c. To prevent any activity on or use of the Conservation Lands that is inconsistent with the purposes of this Conservation Easement and to require the restoration of such areas or features of the Conservation Lands that may be damaged by any act, failure to act, or any use or activity that is inconsistent with the purposes of this Conservation Easement.

   d. To require that all mineral, air and water rights owned by Grantor that Grantee deems reasonably necessary to preserve and protect the biological resources and Conservation Values of the Conservation Lands shall not be separated from the Conservation Lands by transfer, encumbrance, lease, sale, or otherwise.

   e. All present and future development rights appurtenant to, allocated, implied, reserved or inherent in the Conservation Lands are hereby terminated and extinguished, and may not be exercised on or transferred to any portion of the Conservation Lands or any adjacent property.

   f. To enforce by any lawful means, including, without limitation, injunctive relief, the terms and conditions of this Conservation Easement.

3. **Prohibited Uses.** Any activity on or use of the Conservation Lands that is inconsistent with the purposes of this Conservation Easement is prohibited. Without limiting the generality of the foregoing, and except as provided above at Subsection 1(d) for Laydown Area Envelopes, as that term is therein defined, the following uses and activities by Grantor, Grantor’s agents, and third parties are expressly prohibited to the extent provided below:

**CONSERVATION EASEMENT**
Page 6 of 24
a. Watering, except for purposes of revegetation or restoration necessary to maintain the Natural Condition of the Conservation Lands.

b. Except as otherwise specifically provided in the Management Plan: grazing; planting of certain native shrubs; use of chemical herbicides; and weed abatement activities. Use of chemical fertilizers, pesticides, biocides, rodenticides, fungicides, or other agricultural chemicals or agents is prohibited.

c. Incompatible fire protection activities.

d. Use of unmanned aerial vehicles (UAVs) unless authorized by the Management Plan for management and/or Conservation Value protection.

e. Use of off-road vehicles and other ground-based motorized vehicles except on existing roadways and as otherwise specifically provided in the Management Plan.

f. Agricultural activities of any kind, except as specifically provided in the Management Plan with respect to grazing, planting of certain native shrubs, or otherwise.

g. Recreational activities, including, but not limited to, horseback riding, biking, hunting, or fishing.

h. Commercial, residential, institutional, or industrial uses.

i. Any legal or de facto division, subdivision, or partitioning of the Conservation Lands, including a request for a certificate of compliance pursuant to the Subdivision Map Act (Gov. Code Section 66499.35).

j. Construction, reconstruction, expansion, location, relocation, installation, erection, or placement of any building, billboard, or any other structure or improvement of any kind, except for fencing, corrals, and water systems specifically provided in the Management Plan. Signs are only allowed for the purposes of public safety, identifying the Conservation Easement and its participants and posting the Conservation Lands to control unauthorized entry or use; provided, no sign resulting in the impairment of Conservation Values shall be allowed.

k. Depositing or accumulation of soil, trash, ashes, refuse, waste, bio-solids or any other materials.

l. Planting, introduction or dispersal of non-native or exotic plant or animal species.

m. Except for normal and customary road maintenance as specifically provided in the Management Plan, filling, dumping, excavating,
draining, dredging, mining, drilling, removing or exploring for or extracting minerals, loam, soil, sands, gravel, rock, or other material on or below the surface of the Conservation Lands, or granting or authorizing surface entry for any of these purposes.

n. Altering the surface or general topography of the Conservation Lands, including but not limited to any material alterations to habitat, building roads or trails, paving or otherwise covering any portion of the Conservation Lands.

o. Removing, disturbing, altering, destroying, or cutting of trees, shrubs or other vegetation, except (1) as required by law for fire breaks, (2) for prevention or treatment of disease or controlling invasive plant species, or (3) as otherwise specifically provided in the Management Plan.

p. Manipulating, impounding, or altering any natural water course, body of water or water circulation on the Conservation Lands, except as otherwise specifically provided in the Management Plan, and any activities or uses detrimental to water quality, including but not limited to degradation or pollution of any surface or sub-surface waters.

q. Transferring, encumbering, selling, leasing or other separation of the mineral, air or water rights for the Conservation Lands, or changing the place or purpose of use of the water rights, without first obtaining the written consent of Grantee and the Agencies, which Grantee or any Agency may withhold in its reasonable discretion. Grantor shall not abandon or allow the abandonment of, by action or inaction, any water or water rights, ditch or ditch rights, spring rights, reservoir or storage rights, wells, ground water rights, or other rights in and to the use of water historically used on or otherwise appurtenant to the Conservation Lands including, without limitation: (1) riparian water rights; (2) appropriative water rights; (3) rights to waters which are secured under contract with any irrigation or water district, to the extent such waters are customarily applied to the Conservation Lands; or (4) any water from wells that are in existence or may be constructed in the future on the Conservation Lands.

r. Engaging in any use or activity on the Conservation Lands that may violate, or may fail to comply with, relevant federal, state, or local laws, regulations, or policies applicable to Grantor, the Conservation Lands, or the use or activity in question.

s. Any and all other activities and uses which may adversely affect the Conservation Values of the Conservation Lands or otherwise interfere with the purposes of this Conservation Easement.

4. Grantee's Duties. To ensure that the purposes of this Conservation Easement as described in Section 1 (Purposes) are being accomplished, Grantee and its successors and assigns shall (a) perform annually, a

CONSERVATION EASEMENT
Page 8 of 24
comprehensive compliance monitoring inspection of the Conservation Lands; (b) enforce the terms of this Conservation Easement and defend this Conservation Easement; (c) prepare an annual report on the results of the compliance monitoring inspection; and (d) provide those reports to the Agencies upon request.

5. **Grantor's Duties.**

   a. Grantor shall undertake reasonable efforts to prevent unlawful entry and trespass by persons whose activities may degrade or harm the Conservation Values of the Conservation Lands or that are otherwise inconsistent with this Conservation Easement.

   b. Grantor shall undertake all necessary actions to perfect and defend rights of Grantee under Section 2 (Grantee's Rights) of this Conservation Easement, and to implement the Management Plan.

   c. If (1) any subsurface mineral rights have been severed from the surface estate of the Conservation Lands ("Severed Mineral Rights") prior to the date of the recording of this Conservation Easement, and (2) Grantor is given notice or otherwise learns that a third party intends to develop such subsurface mineral rights, then Grantor shall provide Grantee and the Agencies written notice of such intended development as soon as is practicable and shall cooperate with Grantee in exercising Grantee's legal rights to limit any such development to protect the Conservation Lands' Conservation Values.

   d. With respect to any Severed Mineral Rights which are managed by the U.S. Department of the Interior, Bureau of Land Management ("BLM") ("BLM Severed Mineral Rights"), Grantor shall use all reasonable efforts to obtain from BLM a conveyance of all such BLM Severed Mineral Rights. Within thirty (30) days of recordation of this Conservation Easement, Grantor shall file with BLM any and all applications, requests, or other documents necessary to initiate the conveyance process, and Grantor shall diligently and in good faith pursue and prosecute the conveyance until it receives a final decision from BLM. In addition, Grantor shall use all reasonable efforts to have BLM promptly segregate all of the BLM Severed Mineral Rights from settlement, sale, location, or entry for the maximum allowable time period pursuant to Section 209(b) of the Federal Land Policy and Management Act (43 U.S.C. Section 1719) and the implementing regulations at 43 C.F.R. Part 2720, and to renew such segregation upon its expiration, as applicable.

6. **Grantee's Remedies.** If Grantee determines that a violation of this Conservation Easement has occurred or is threatened, Grantee shall give written notice to Grantor of such violation and demand in writing the cure of such violation ("Notice of Violation"). At the time of giving any such notice, Grantee shall give a copy of the notice to CDFW (or, if CDFW gives a Notice of Violation it shall also give a copy of the notice to Grantee). Notice shall be provided in...
accordance with Section 18 of this Conservation Easement. If Grantor fails to
cure the violation within thirty (30) days after receipt of a Notice of Violation, or if
the cure reasonably requires more than thirty (30) days to complete and Grantor
fails to begin the cure within the thirty (30)-day period or fails to continue
diligently to complete the cure, Grantee may bring an action at law or in equity in
a court of competent jurisdiction for any or all of the following: to recover any
damages to which Grantee may be entitled for violation of the terms of this
Conservation Easement or for any injury to the Conservation Values of the
Conservation Lands; to enjoin the violation, ex parte as necessary, by temporary
or permanent injunction without the necessity of proving either actual damages or
the inadequacy of otherwise available legal remedies; to pursue any other legal
or equitable relief, including but not limited to, the restoration of the Conservation
Lands to the condition in which it existed prior to any violation or injury; or to
otherwise enforce this Conservation Easement. Without limiting the liability of
Grantor, Grantee may apply any damages recovered to the cost of undertaking
any corrective action on the Conservation Lands.

If Grantee, in its sole discretion, determines that circumstances require
immediate action to prevent or mitigate injury to the Conservation Values of the
Conservation Lands, then Grantee may pursue its remedies under this
Conservation Easement without prior notice to Grantor or without waiting for the
period provided for cure to expire. Grantee’s rights under this Section apply
equally to actual or threatened violations of this Conservation Easement.

Grantor agrees that Grantee’s remedies at law for any violation of this
Conservation Easement are inadequate and that Grantee shall be entitled to the
injunctive relief described in this Section, both prohibitive and mandatory, in
addition to such other relief to which Grantee may be entitled, including specific
performance of this Conservation Easement, without the necessity of proving
either actual damages or the inadequacy of otherwise available legal remedies.
Grantee’s remedies described in this Section shall be cumulative and shall be in
addition to all remedies now or hereafter existing at law or in equity, including but
not limited to the remedies set forth in California Civil Code Section 815, et seq.
The failure of Grantee to discover a violation or to take immediate legal action
shall not bar Grantee from taking such action at a later time.

a. Costs of Enforcement. All costs incurred by Grantee, where
Grantee is the prevailing party, in enforcing the terms of this Conservation
Easement against Grantor, including, but not limited to, costs of suit and
reasonable attorneys’ and experts’ fees, and any costs of restoration
necessitated by negligence or breach of this Conservation Easement, shall be
borne by Grantor.

b. Grantee’s Discretion. Enforcement of the terms of this
Conservation Easement by Grantee, CDFW, or USFWS shall be at the discretion
of Grantee, CDFW, or USFWS and any forbearance by Grantee, CDFW, or
USFWS to exercise its rights under this Conservation Easement in the event of

CONSERVATION EASEMENT
Page 10 of 24
any breach of any term of this Conservation Easement shall not be deemed or construed to be a waiver of such term or of any subsequent breach of the same or any other term of this Conservation Easement or of any rights of Grantee (or any rights of CDFW or USFWS, as third-party beneficiaries ("Third-Party Beneficiaries") under this Conservation Easement. No delay or omission by Grantee or a Third-Party Beneficiary in the exercise of any right or remedy shall impair such right or remedy or be construed as a waiver.

   c. Acts Beyond Grantor's Control. Nothing contained in this Conservation Easement shall be construed to entitle Grantee or a Third-Party Beneficiary to bring any action against Grantor for any injury to or change in the Conservation Lands resulting from (1) any natural cause beyond Grantor's control, including, without limitation, fire not caused by Grantor, flood, storm, and earth movement, or any prudent action taken by Grantor under emergency conditions to prevent, abate, or mitigate significant injury to the Conservation Lands resulting from such causes; or (2) acts by Grantee, any of the Agencies, or any of their employees or agents.

   d. Notice of Conflict. If Grantor receives a Notice of Violation from Grantee or a Third-Party Beneficiary with which it is impossible for Grantor to comply consistent with any prior uncured Notice(s) of Violation, Grantor shall give written notice of the conflict (hereinafter "Notice of Conflict") to the Grantee and Third-Party Beneficiaries. In order to be valid, a Notice of Conflict shall be given within fifteen (15) business days of the date Grantor receives a conflicting Notice of Violation, shall include copies of the conflicting Notices of Violation, and shall describe the conflict with specificity, including how the conflict makes compliance with the uncured Notice(s) of Violation impossible. Upon issuing a valid Notice of Conflict, Grantor shall not be required to comply with the conflicting Notices of Violation until such time as one or more of the entity or entities issuing said conflicting Notices of Violation issue(s) revised Notice(s) of Violation that resolve the conflict or the entities issuing the conflicting Notices of Violation provide Grantor with written notice explaining why the Notices of Violation do not conflict. Upon receipt of one or more revised Notices of Violation or a written explanation of why the Notices do not conflict, Grantor shall comply with such notice(s) within the time period(s) described in this Section. The failure of Grantor to issue a valid Notice of Conflict within fifteen (15) business days of receipt of a conflicting Notice of Violation shall constitute a waiver of Grantor's ability to claim a conflict.

   e. Third-Party Beneficiary Right of Enforcement.

       (1) Grantor and Grantee acknowledge and agree that CDFW and USFWS are Third-Party Beneficiaries of this Conservation Easement to the extent set forth above in this Conservation Easement. Except as expressly set forth herein, this Conservation Easement has been made solely for the benefit of the parties hereto and their respective successors and permitted
assigns, and nothing in this Conservation Easement is intended to, or shall, confer upon any other person any benefits, rights or remedies.

(2) All rights and remedies conveyed to Grantee under this Conservation Easement shall extend to and are enforceable by any of the Third-Party Beneficiaries against Grantee if Grantee fails to enforce this Conservation Easement within sixty (60) days of written notice from a Third-Party Beneficiary and against Grantor if Grantee fails to cause Grantor to comply with its obligations under this Conservation Easement within sixty (60) days of written notice from such Third-Party Beneficiary of such breach. These rights are in addition to, and do not limit, any separate rights of enforcement in favor of the Third-Party Beneficiaries that may exist under the Management Plan. If at any time in the future Grantor uses, allows the use, or threatens to use or allow use of, the Conservation Lands for any purpose that is inconsistent with or in violation of this Conservation Easement then, despite the provisions of California Civil Code Section 815.7, any Third-Party Beneficiary has standing as an interested party in any proceeding affecting this Conservation Easement.

f. Reversion. If, following the expiration of applicable notice and cure periods, CDFW reasonably determines that Grantee is not holding, monitoring, enforcing, or defending this Conservation Easement for conservation purposes in the manner specified in this Conservation Easement then, pursuant to California Government Code Section 65967(e), Grantee's interest in this Conservation Easement shall revert to the State of California, or to another public agency or nonprofit organization qualified pursuant to Civil Code Section 815.3 and Government Code Section 65965 (and any successor or other provision(s) then applicable) and approved by the Agencies.

8. Access. This Conservation Easement does not convey any right of access (general or otherwise) to the public.

9. Costs and Liabilities. Except as expressly set forth in Section 16, Grantor retains all responsibilities and shall bear all costs and liabilities of any kind related to the ownership, operation, upkeep, and maintenance of the Conservation Lands. Grantor agrees that neither Grantee nor any Agency shall have any duty or responsibility for the operation, upkeep or maintenance of the Conservation Lands, the monitoring of hazardous conditions on it, or the protection of Grantor, the public or any third parties from risks relating to conditions thereon. Grantor remains solely responsible for obtaining any applicable governmental permits and approvals required for any activity or use permitted by this Conservation Easement, including those required from any Agency acting in its regulatory capacity, and any activity or use shall be undertaken in accordance with all applicable Federal, state, local and administrative agency statutes, codes, ordinances, rules, regulations, orders and requirements.

CONSERVATION EASEMENT
Page 12 of 24
a. **Taxes: No Liens.** Grantor shall pay before delinquency all taxes, assessments (general and special), fees, and charges of whatever description levied on or assessed against the Conservation Lands by competent authority (collectively "Taxes"), including any Taxes imposed upon, or incurred as a result of, this Conservation Easement, and shall furnish Grantee or a Third-Party Beneficiary with satisfactory evidence of payment upon request. Grantor shall keep the Conservation Lands free from any liens (other than a security interest that is subordinate to this Conservation Easement), including those arising out of any obligations incurred by Grantor for any labor or materials furnished or alleged to have been furnished to or for Grantor at or for use on the Conservation Lands.

b. **Hold Harmless.**

(1) Grantor shall hold harmless, protect and indemnify Grantee and its directors, officers, employees, and disclosed agents, and representatives and the heirs, successors and assigns of each of them (each an "Indemnified Party" and, collectively, "Indemnified Parties") from and against any and all liabilities, penalties, costs, losses, damages, expenses (including, without limitation, reasonable attorneys’ fees and experts’ fees), causes of action, claims, demands, orders, liens or judgments (each a "Claim" and, collectively, "Claims"), arising from or in any way connected with: (a) injury to or the death of any person, or physical damage to any property, resulting from any act, omission, condition, or other matter related to or occurring on or about the Conservation Lands, caused by Grantor, unless due to the negligence of Grantee or any of its directors, officers, employees, and disclosed agents and representatives; (b) the obligations specified in Sections 3 and 9; and (c) the existence or administration of this Conservation Easement. If any action or proceeding is brought against any of the Indemnified Parties by reason of any such Claim, Grantor shall, at the election of and upon written notice from Grantee, defend such action or proceeding by counsel reasonably acceptable to the Indemnified Party.

(2) Grantor shall hold harmless, protect and indemnify Third-Party Beneficiaries and their respective directors, officers, employees, and disclosed agents, and representatives and the heirs, successors and assigns of each of them (each a "Third-Party Beneficiary Indemnified Party" and collectively, "Third-Party Beneficiary Indemnified Parties") from and against any and all Claims arising from or in any way connected with: (i) injury to or the death of any person, or physical damage to any property, resulting from any act, omission, condition, or other matter related to or occurring on or about the Conservation Lands, caused by Grantor and (ii) the existence or administration of this Conservation Easement. Provided, however, that the indemnification in this Section shall be inapplicable to a Third-Party Beneficiary Indemnified Party with respect to any Claim due to the negligence of that Third-Party Beneficiary Indemnified Party or any of its directors, officers, employees, agents, contractors or representatives. If any action or proceeding is brought against any of the Third-Party Beneficiary Indemnified Parties by reason of any Claim to which the

CONSERVATION EASEMENT
Page 13 of 24
indemnification in this Section applies, then at the election of and upon written notice from the Third-Party Beneficiary Indemnified Party, Grantor shall defend such action or proceeding by counsel reasonably acceptable to the applicable Third-Party Beneficiary Indemnified Party or reimburse the Third-Party Beneficiary Indemnified Party for all reasonable charges incurred for services of the California Attorney General or the U.S. Department of Justice in defending the action or proceeding.

(3) Grantee shall hold harmless, indemnify, and defend Grantor and its officers, directors, employees, legal representatives, disclosed agents, heirs, successors and assigns, (each a “Grantor Indemnified Party” and, collectively, “Grantor Indemnified Parties”) and each of them from and against all liabilities, penalties, costs, losses, damages, expenses, causes of action, claims, demands, or judgments, including without limitation, reasonable attorneys’ and experts’ fees, arising from or in any way connected with any injury to or the death of any person, or physical damage to any property, resulting from any act, omission, condition, or other matter related to or occurring on or about the Conservation Easement to the extent caused by the conduct of Grantee.

10. **Extinction.** If circumstances arise in the future that render the purposes of this Conservation Easement impossible to accomplish, then this Conservation Easement can only be terminated or extinguished, in whole or in part, by judicial proceedings in a court of competent jurisdiction.

11. **Condemnation.** The purposes of this Conservation Easement are presumed to be the best and most necessary public use as defined at California Code of Civil Procedure Section 1240.680 notwithstanding California Code of Civil Procedure Sections 1240.690 and 1240.700. Pursuant to California Code of Civil Procedure Section 1240.055, this Conservation Easement is “property appropriated to public use,” as used in Article 6 (commencing with Section 1240.510) and Article 7 (commencing with Section 1240.610) of the California Code of Civil Procedure. A person authorized to acquire property for public use by eminent domain shall seek to acquire the Conservation Lands, if at all, only as provided in Code of Civil Procedure Section 1240.055. The Agencies are public entities that imposed conditions on approval of a project that were satisfied, in whole or in part, by the creation of this Conservation Easement. If any person seeks to acquire the Conservation Lands for public use, then Grantee shall provide notice to the Agencies and comply with all obligations of the holder of a conservation easement under California Code of Civil Procedure Section 1240.055. If the Conservation Easement is condemned, then the net proceeds from the condemnation shall be used in compliance with California Government Code Section 65966(j).

12. **Merger.** The doctrine of merger shall not operate to extinguish this Conservation Easement if the Conservation Easement and the Conservation Lands become vested in the same party. If, despite this intent, the doctrine of merger applies to extinguish the Conservation Easement then, unless Grantor,
Grantee, and the Agencies otherwise agree in writing, a replacement conservation easement or restrictive covenant containing the same protections embodied in this Conservation Easement shall be recorded against the Conservation Lands.

13. **Transfer of Conservation Easement.** This Conservation Easement may be assigned or transferred by Grantee upon written approval of Grantor and the Agencies, which approval shall not be unreasonably withheld or delayed, but Grantee shall give Grantor and the Agencies at least ninety (90) days prior written notice of the transfer. Grantee may assign or transfer its rights under this Conservation Easement only to an entity or organization authorized to acquire and hold conservation easements pursuant to Civil Code Section 815.3 (or any successor provision then applicable) and approved by CDFW pursuant to Government Code Section 65967. Evidence of the assignment of Grantee’s rights under this Conservation Easement shall be the execution by Grantee and the transferee of an assignment and assumption agreement pursuant to which the transferee agrees to assume all obligations of the Grantee hereunder. A form of such assignment and assumption agreement shall be provided to Grantor and the Agencies no less than thirty (30) days prior to the date Grantee and the transferee intend to enter into such agreement. Grantee shall require the assignee to record the assignment and assumption agreement in San Benito County and Fresno County, and Grantee shall provide or shall cause transferee to provide a copy of such recorded assignment and assumption agreement to Grantor and the Agencies promptly upon receipt thereof. The failure of Grantee to perform any act provided in this section shall not impair the validity of this Conservation Easement or limit its enforceability in any way. Any transfer under this Section is subject to the requirements of Section 14.

14. **Binding Upon Successors.** Grantor agrees that the terms of this Conservation Easement shall run with the land and be binding upon any and all successors in interest. Accordingly, any deed or other legal instrument by which Grantor divests itself of any interest in all or any portion of the Conservation Lands, including, without limitation, a leasehold interest, shall be subject to this Conservation Easement. Any security interest in the Conservation Lands granted from and after the date of this Conservation Easement shall be subject and subordinate to this Conservation Easement. Grantor further agrees to give written notice to Grantee of the intent to transfer any interest at least ninety (90) days prior to the date of such transfer. Grantee shall have the right to prevent subsequent transfers in which prospective subsequent claimants or transferees are not given notice of the covenants, terms, conditions and restrictions of this Conservation Easement. The failure of Grantor or Grantee to perform any act provided in this Section shall not impair the validity of this Conservation Easement or limit its enforceability in any way. Any transfer under this Section is subject to the requirements of Section 13.

15. **Transfer of Conservation Lands and Conservation Easement.** Notwithstanding Sections 13 and 14 of this Conservation Easement, Grantor,
Grantee, and the Agencies intend to have both the Conservation Easement and fee title to the Conservation Lands transferred within 150 days of recordation of this Conservation Easement as set forth in this Section. Within ninety (90) days of recordation of this Conservation Easement, Grantor Panoche Valley Solar, LLC shall identify a permanent grantee to replace Grantee Center for Natural Lands Management and shall provide the Third Party Beneficiaries with a proposed assignment and assumption agreement. The permanent grantee shall be subject to the prior written approval of the Agencies. Within ninety (90) days of Recordation of this Conservation Easement, Grantor Panoche Valley Solar, LLC shall provide to the agencies a draft grant deed or other appropriate instrument to transfer fee title to the Conservation Lands to the Center for Natural Lands Management. Within 150 days of recordation of this Conservation Easement, Grantee Center for Natural Lands Management shall transfer this Conservation Easement to the permanent grantee. Immediately following the transfer of the Conservation Easement to the permanent grantee, Grantor Panoche Valley Solar, LLC shall transfer fee title to the Conservation Lands to the Center for Natural Lands Management. Grantor Panoche Valley Solar, LLC shall ensure that both the final assignment and assumption agreement transferring the Conservation Easement and the final deed or other instrument transferring fee title to the Conservation Lands are recorded in San Benito County and Fresno County.

16. Conservation Easement Monitoring; Preserve Restoration; and Compliance Reporting.

a. Grantee’s Responsibilities. Grantee, its successors and assigns shall be responsible for monitoring for compliance with this Conservation Easement in perpetuity.

b. Restoration Responsibilities. Grantor, Grantee, their successors and assigns shall each individually be obligated to repair, remediate, or restore the Conservation Lands damaged by any activities prohibited by Section 3 herein for which it is responsible.

c. Annual Compliance Reporting. Grantee, its successors and assigns shall prepare an annual Conservation Easement monitoring, enforcement, and defense documenting those activities performed under this Section 16, and shall make such report available to the Grantor and each of the Agencies upon request or as required.

17. Endowment. Grantor shall transfer to Grantee upon recording of the Conservation Easement a certain sum agreed upon and calculated using a "Property Analysis Record™" ("PAR") for the purpose of fulfilling Grantee’s monitoring, enforcement, and defense obligations under this Conservation Easement. Grantee shall establish a Conservation Easement Monitoring, Enforcement, and Defense Endowment ("CE MED Endowment") that may be used by Grantee to fund its Conservation Lands obligations pursuant to this

CONSERVATION EASEMENT
Page 16 of 24
Conservation Easement. Concurrent with the transfer of this Conservation Easement pursuant to Section 15, Grantor Panoche Valley Solar, LLC shall transfer funds to the permanent grantee for a perpetual CE MED Endowment. Funding for the initial CE MED Endowment provided to Grantee and the perpetual CE MED Endowment provided to the permanent grantee shall be provided pursuant to the terms and conditions of an endowment management agreement ("Endowment Management Agreement") between the respective parties.

18. Notices. Any notice, demand, request, consent, approval, or other communication that Grantor or Grantee desires or is required to give to the other shall be in writing, with a copy to each of the Agencies, and be served personally or sent by recognized overnight courier that guarantees next-day delivery or by first class United States mail, postage fully prepaid, addressed as follows:

Grantor, Grantee and the Agencies. Notice shall be deemed effective upon  
delivery in the case of personal delivery or delivery by overnight courier or, in the  
case of delivery by first class mail, five (5) days after deposit into the United  
States mail.

19. Amendment. This Conservation Easement may be amended only  
by mutual written agreement of Grantor and Grantee, and prior written approval  
of the Agencies (which approval shall not be unreasonably withheld, conditioned  
or delayed). Any such amendment shall be consistent with the purposes of this  
Conservation Easement and California law governing conservation easements  
and shall not affect its perpetual duration. Any such amendment shall be  
recorded in the official records of San Benito County and Fresno County, and  
Grantee shall promptly provide an electronic copy of the recorded amendment to  
the Grantor, Agencies, and the Attorney General of California.

Lands must be approved in writing by San Benito County, CDFW and USFWS,  
and the Final WMMP portion of the Management Plan also must be approved in  
writing by the RWQCB, and USACE. Grantor must submit the draft Management  
Plan to the applicable Agencies within thirty (30) days following the recordation  
of this Conservation Easement, and must obtain the written approval of San Benito  
County, CDFW, and USFWS for the Management Plan. The Management Plan  
may be amended only upon mutual written agreement of Grantor, Grantee, and  
the applicable Agencies. The Management Plan may be amended without  
requiring amendment of this Conservation Easement; provided, however, that the  
Management Plan cannot change any provision or requirement of this  
Conservation Easement.

a. Controlling Law. The interpretation and performance of this  
Conservation Easement shall be governed by the laws of the United States  
and State of California, disregarding the conflicts of law principles of such state.

b. Liberal Construction. Despite any general rule of  
construction to the contrary, this Conservation Easement shall be liberally
construed to effect the purposes of this Conservation Easement and the policy and purpose of California Civil Code Section 815, et seq. and Government Code Section 65965 et seq. If any provision in this instrument is found to be ambiguous, an interpretation consistent with the purposes of this Conservation Easement that would render the provision valid shall be favored over any interpretation that would render it invalid.

c. **Severability.** If a court of competent jurisdiction voids or invalidates on its face any provision of this Conservation Easement, then such action shall not affect the remainder of this Conservation Easement. If a court of competent jurisdiction voids or invalidates the application of any provision of this Conservation Easement to a person or circumstance, then such action shall not affect the application of the provision to any other persons or circumstances.

d. **Entire Agreement.** This instrument (including its exhibits) sets forth the entire agreement of the parties and the Agencies with respect to the Conservation Easement and supersedes all prior discussions, negotiations, understandings, or agreements relating to the Conservation Easement. No alteration or variation of this instrument shall be valid or binding unless contained in an amendment in accordance with Section 19.

e. **No Forfeiture.** Nothing contained herein will result in a forfeiture or reversion of Grantor’s title in any respect.

f. **Successors.** The rights, obligations, covenants, terms, conditions, and restrictions of this Conservation Easement shall be binding upon, and inure to the benefit of, the parties hereto and their respective personal representatives, heirs, successors, and assigns and shall constitute a servitude running in perpetuity with the Conservation Lands.

g. **Termination of Rights and Obligations.** A party’s rights and obligations under this Conservation Easement terminate upon transfer of the party’s interest in the Conservation Easement or Conservation Lands, except that liability for acts, omissions or breaches occurring prior to transfer shall survive transfer.

h. **Captions.** The captions in this instrument have been inserted solely for convenience of reference and are not a part of this instrument and shall have no effect upon its construction or interpretation.

i. **No Hazardous Materials Liability.**

(1) Except as set forth in Exhibit C, Grantor represents and warrants that it has no knowledge or notice of any Hazardous Materials (defined below) or underground storage tanks existing, generated, treated, stored, used, released, disposed of, deposited or abandoned in, on, under, or from the Conservation Lands, or transported to or from or affecting the Conservation Lands.

CONSERVATION EASEMENT
Page 19 of 24
(2) Without limiting the obligations of Grantor under Section 9(b), Grantor hereby releases and agrees to indemnify, protect and hold harmless the Indemnified Parties (defined in Section 9) from and against any and all Claims (defined in Section 9) arising from or connected with any Hazardous Materials or underground storage tanks present, alleged to be present, released in, from or about, or otherwise associated with the Conservation Lands at any time, except any Hazardous Materials placed, disposed or released by Grantee, its employees or agents or disclosed in Exhibit C. This release and indemnification includes, without limitation, Claims for injury to or death of any person or physical damage to any property; and the violation or alleged violation of, or other failure to comply with, any Environmental Laws (defined below). If any action or proceeding is brought against any of the Indemnified Parties by reason of any such Claim, Grantor shall, at the election of and upon written notice from Grantee, defend such action or proceeding by counsel reasonably acceptable to the Indemnified Party or reimburse Grantee for its reasonable costs and expenses in defending the action or proceeding.

(3) Without limiting the obligations of Grantor under Section 9(b), Grantor hereby releases and agrees to indemnify, protect and hold harmless the Third-Party Beneficiary Indemnified Parties (defined in Section 9) from and against any and all Claims arising from or connected with any Hazardous Materials or underground storage tanks present, alleged to be present, released in, from or about, or otherwise associated with the Conservation Lands at any time to the extent arising from Grantor's actions, except that this release and indemnification shall be inapplicable to a Third-Party Beneficiary Indemnified Party with respect to any Hazardous Materials placed, disposed or released by that Third-Party Beneficiary Indemnified Party or any of its employees or disclosed in Exhibit C. This release and indemnification includes, without limitation, Claims for (a) injury to or death of any person or physical damage to any property; and (b) the violation of alleged violation of, or other failure to comply with, any Environmental Laws. If any action or proceeding is brought against any of the Third-Party Beneficiary Indemnified Parties by reason of any such Claim, Grantor shall, at the election of and upon written notice from the applicable Third-Party Beneficiary Indemnified Party, defend such action or proceeding by counsel reasonably acceptable to the Third-Party Beneficiary Indemnified Party or reimburse the Third-Party Beneficiary Indemnified Party for all reasonable charges incurred for services of the California Attorney General or the U.S. Department of Justice in defending the action or proceeding.

(4) Without limiting the obligations of Grantee under Section 9(b), Grantee hereby releases and agrees to indemnify, protect and hold harmless the Grantor Indemnified Parties (defined in Section 9) from and against any and all Claims (defined in Section 9) arising from or connected with any Hazardous Materials or underground storage tanks present, alleged to be present, released in, from or about, or otherwise associated with the Conservation Lands at any time to the extent arising from the actions of Grantee,
except any Hazardous Materials placed, disposed or released by Grantor, its employees or agents or disclosed in the Environmental Reports. This release and indemnification includes, without limitation, Claims for injury to or death of any person or physical damage to any property; and the violation or alleged violation of, or other failure to comply with, any Environmental Laws (defined below). If any action or proceeding is brought against any of the Grantor Indemnified Parties by reason of any such Claim, Grantee shall, at the election of and upon written notice from Grantor, defend such action or proceeding by counsel reasonably acceptable to the Grantor Indemnified Party or reimburse Grantor for its reasonable costs and expenses in defending the action or proceeding.

(5) Despite any contrary provision of this Conservation Easement, the parties do not intend this Conservation Easement to be, and this Conservation Easement shall not be, construed such that it creates in or gives to Grantee or any Third-Party Beneficiary, any of the following:

(A) The obligations or liability of an "owner" or "operator," as those terms are defined and used in Environmental Laws (defined below), including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (42 U.S.C. § 9601, et seq.; hereinafter, "CERCLA"); or

(B) The obligations or liabilities of a person described in 42 U.S.C. § 9607(a) (3) or (4); or

(C) The obligations of a responsible person under any applicable Environmental Laws; or

(D) The right to investigate and remediate any Hazardous Materials associated with the Conservation Lands; or

(E) Any control over Grantor's ability to investigate, remove, remediate or otherwise clean up any Hazardous Materials associated with the Conservation Lands.

(6) The term "Hazardous Materials" includes, without limitation, (a) material that is flammable, explosive or radioactive; (b) petroleum products, including by-products and fractions thereof; and (c) hazardous materials, hazardous wastes, hazardous or toxic substances, or related materials defined in CERCLA, the Resource Conservation and Recovery Act of 1976 (42 U.S.C. § 6901, et seq.; hereinafter, "RCRA"); the Hazardous Materials Transportation Act (49 U.S.C. § 6901, et seq.; hereinafter, "HTA"); the Hazardous Waste Control Law (California Health & Safety Code § 25100, et seq.; hereinafter, "HCL"); the Carpenter-Presley-Tanner Hazardous Substance Account Act (California Health & Safety Code § 25300, et seq.; hereinafter "HSA"), and in the regulations adopted and publications promulgated pursuant to

CONSERVATION EASEMENT
Page 21 of 24
them, or any other applicable Environmental Laws now in effect or enacted after the date of this Conservation Easement.

(7) The term "Environmental Laws" includes, without limitation, CERCLA, RCRA, HTA, HCL, HSA, and any other federal, state, local or administrative agency statute, ordinance, rule, regulation, order or requirement relating to pollution, protection of human health or safety, the environment or Hazardous Materials.

j. Warranty. Grantor represents and warrants that, as of the date of this Conservation Easement, Grantor is the sole owner of fee simple title to the Conservation Lands and that there are no outstanding mortgages, liens, encumbrances, or other interests in the Conservation Lands that may conflict or are otherwise inconsistent with this Conservation Easement and which have not been expressly subordinated to this Conservation Easement by a written, recorded Subordination Agreement approved by Grantee and CDFW, and that the Conservation Lands are not subject to any other conservation easement.

k. Additional Interests. Grantor shall not grant any additional easements, rights of way, or other interests in the Conservation Lands, nor shall Grantor separately (i.e., apart from a transfer of the entire Conservation Lands) grant, transfer, abandon or relinquish any mineral, air, or water rights or any water associated with the Conservation Lands, without first obtaining the written consent of Grantee and the Third-Party Beneficiaries, which shall not be unreasonably withheld. Grantee or either Third-Party Beneficiary may withhold such consent in its reasonable discretion if Grantee or the Third-Party Beneficiary determines that the proposed interest or transfer is inconsistent with the purposes of this Conservation Easement or may impair or interfere with the Conservation Values of the Conservation Lands. This Subsection 21(k) shall not limit the provisions of Section 2(d) (Grantee’s Rights - Mineral/Air/Water Rights), nor prohibit transfer of a fee or leasehold interest in the Conservation Lands that is subject to this Conservation Easement and complies with Section 15 (Transfer of Conservation Lands and Conservation Easement).

l. Recording. Grantee shall record this Conservation Easement in the Official Records of both San Benito County and Fresno County, and may re-record it at any time as Grantee deems necessary to preserve its rights in this Conservation Easement.

Summary of Recognized and Potential Environmental Concerns within the Conservation Lands for the Panoche Valley Project

Debris Site 1
- Debris Site 1 made up of tires and wire fencing
- Four soil samples taken upstream, midstream, and downstream.
- Sampled for:\n  - Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)-EPA Method 8015M
  - Volatile Organic Compounds-EPA Method 8260B
  - Organochlorine Pesticides constituents- EPA Method SW846 8260B
  - Metals (CAM 17) EPA Method 6010B (Mercury by EPA 7470A)
- Sample results exceeded the California Regional Screening Levels ([CA RSL] Region 9) residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Debris Site 2
- Debris Site 2 made up of one large water cistern
- Three soil samples taken upstream, midstream, and downstream.
- Sampled for;
  - Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)
  - Volatile Organic Compounds
  - Organochlorine Pesticides constituents
  - Metals (CAM 17)
- Sample results exceeded the CA RSL residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Debris Site 3
- Debris Site 3 made up of large water cisterns and scrap metal
- Three soil samples taken upstream, midstream, and downstream.
- Sampled for;
  - Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)
  - Volatile Organic Compounds
  - Organochlorine Pesticides constituents
  - Metals (CAM 17)
- Sample results exceeded the CA RSL residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Debris Site 4
- Debris Site 4 made up washer machines, old cars, metal scraps, televisions, plastic materials, fencing material, and wood scraps.
- Four soil samples taken upstream, midstream, and downstream.

---

1 All soil samples were analyzed using the same analytical Methods.
• Sampled for;
  o Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)
  o Volatile Organic Compounds
  o Organochlorine Pesticides constituents
  o Metals (CAM 17)
• Sample results exceeded the CA RSL residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Debris Site 5
• Debris Site 5 made up of vehicle tires, metal scraps, and wood scraps.
• Three soil samples taken upstream, midstream, and downstream.
• Sampled for;
  o Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)
  o Volatile Organic Compounds
  o Organochlorine Pesticides constituents
  o Metals (CAM 17)
• Sample results exceeded the CA RSL residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Debris Site 6
• Debris Site 6 made up of metal scraps, wood scraps, and home appliances.
• Six soil samples taken upstream, midstream, and downstream.
• Sampled for;
  o Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)
  o Volatile Organic Compounds
  o Organochlorine Pesticides constituents
  o Metals (CAM 17)
• Sample results exceeded the CA RSL residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Debris Site 7
• Debris Site 7 made up of metal scraps, wood scraps, and home appliances.
• Three soil samples taken upstream, midstream, and downstream.
• Sampled for;
  o Total Petroleum Hydrocarbons (gasoline, diesel, and oil range organics)
  o Volatile Organic Compounds
  o Organochlorine Pesticides constituents
  o Metals (CAM 17)
• Sample results exceeded the CA RSL residential and industrial soil standards for arsenic in all samples (naturally occurring); all other sampled parameters were below industrial soil standards.

Valley View Mine-Mercury Sample
• Historic mercury (Hg) mine
• Three soil sample taken. Two samples taken east of the mine within the Conservation Lands, one taken south near Panoche Creek within Conservation Lands
- Sampled for:
  - Metals (CAM 17)
  - Mecury (Hg)
- Sample results exceeded CA RSL Residential and industrial soil standards for arsenic in all samples (naturally occurring).
- Hg was detected at a concentration of 135 mg/kg in sample MM-VLD-1 (directly east of mine). This sample exceeded the CA RSL residential soil standard for Hg.

Bladder Tank
- Temporary Underground Storage Tank
- No visible soil staining, no odor present, no visible issues with bladder tank
- No samples taken
