

NOTICE OF CONSTRUCTION

Panoche Solar Valley, LLC announces its intent to construct a 247-MW photovoltaic (PV) solar power plant in unincorporated area of southeastern San Benito County. Upon approval of all state and federal permits and associated authorizations, construction is anticipated to start between October 1 and November 30, 2015. Construction is expected to be complete by December 2016.

The exact location for the facility known as, Panoche Solar Valley Project, is 721 Little Panoche Road, Paicines, CA 95043.

Construction will include site development of a new switching station, substation, operations and maintenance building, and installation of PV panels. More information about the project can be found on the San Benito County website at <http://www.cosb.us/>.

Work Days: Monday – Saturday, except for standard U.S. holidays

Anticipated Construction Start Window: October 1 – November 30, 2015

Estimated Project Completion: December 2016

Activities may temporarily increase local noise levels, dust, and other disturbances. To help reduce these effects, property owners and facility operators are encouraged to close doors, windows, and other openings facing construction as necessary. The Project is working closely with San Benito County and Fresno County officials, California Highway Patrol, CalFire, Hollister Fire Department, California Department of Public Health, local Sheriff's Department and community groups to minimize the construction impacts on neighboring communities.

If you have any questions about the project, including providing noise complaints, please call toll-free or email our Construction Liaison at:
